

Objectives and investment policy

Objectives

The objective of this fund is to achieve long-term investment growth, while applying a balanced-to-opportunistic asset allocation strategy. The share class is accumulating.

Investment policy

The fund gains exposure, directly or through other funds, to bonds and equities, with emphasis on equities. The fund mainly invests in underlying funds where similar ESG-related processes, criteria and characteristics are applied or can be found. The fund may gain exposure to any credit quality, sector and country, including emerging markets.

Specifically, the fund's default asset allocation is 20% in bonds and 80% in equities, and it is expected that such an allocation will not change significantly. The allocation to bonds and other debt securities shall be 15% to 25% and the allocation to equities 75% to 85%.

The fund is categorised as article 8 under SFDR and promotes environmental and/or social characteristics, as well as good governance practices, through screening, exclusions, investment analysis and decision-making as well as active ownership. The fund follows Danske Invest's responsible investment policy.

In actively managing the fund's portfolio, the management team uses an asset allocation based on a clearly defined investment process.

The fund may use derivatives for hedging and efficient portfolio management, as well as for investment purposes.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Return in the period: 30.06.2020 - 30.06.2025

The default for the chart is the return for the past 5 years as of end of month or, if the fund is less than 5 years old, since launch. Past performance is not a reliable indicator of future results. Future returns may be negative. The return may increase and decrease as a result of currency fluctuations if the fund is issued in a currency other than the currency used in the country in which you are domiciled.
